POSTDOCTORAL RESEARCHERS 2016

The Excellency Laboratory MILYON offers three postdoctoral positions in mathematics and fundamental computer science for the academic years **2016-2018**.

**2 POSITIONS IN MATHEMATICS
AND
1 POSITION IN COMPUTER SCIENCE**

The candidates will do their research in one of the following laboratories:

- [Institut Camille Jordan](#)
- [Laboratoire de l'Informatique du Parallélisme](#)
- [Unité de Mathématiques Pures et Appliquées](#)

DESCRIPTION

These are research-only appointments (without teaching). They are typically for two years, with possible renewal for a third year subject to review.

Net salary: 2179 euros per month. Basic health coverage included. 1500 € / year allowance for expenses.

ELIGIBILITY

For holders of a Ph.D in mathematics or computer science obtained before October 1st, 2016.

CALENDAR

Deadline: January 15th, 2016, at 17:00 (Lyon local time).

Results: February 15th 2016

CONTACTS

For scientific matters:

Grégory Vial / gregory.vial@ec-lyon.fr

Administrative contact:

Carine Sevestre / sevestre@math.univ-lyon1.fr

Labex MILYON

The objective of MILYON is to federate the Lyon community in mathematics and fundamental computer science around three projects, for research, higher education and society, respectively.

Research environment

ICJ regroups researchers from Université Claude Bernard Lyon 1, CNRS, Ecole Centrale de Lyon, INSA Lyon, Université Jean-Monnet de Saint-Etienne.

LIP regroups researchers from CNRS, ENS de Lyon, INRIA, Université Claude Bernard Lyon 1.

UMPA regroups researchers from CNRS, ENS de Lyon.
